

How to Care for Onion Starts

Thank you for your recent order! We wanted to share some tips with you on how to care for onion plants while they are on your shelves.

After your plants arrive,

1. Keep them as cool and dry as possible.
 - a. If possible, remove plants from the box so that they receive proper ventilation.
 - b. If you cannot remove from box, try to open box occasionally and rearrange the plants. This allows for ventilation to all plants.
2. Do not water them.
3. Onion plants can live off of the bulb for up to 4 weeks.
4. If tops grow out, feel free to trim them back.

If you have any questions regarding your plants, your order, or caring for them, please feel free to give us a call at [1-877-367-1015](tel:1-877-367-1015) ext 14 or email bonnie@dixondalefarms.com.

Sincerely,
Dixondale Farms
